The screenshot shows a web browser window with the URL `node-red-vwdvp-2022-11-05-eu-gb.mybluemix.net`. The page has a dark red header with the text "Node-RED on IBM Cloud". Below the header is a large red banner with the text "Node-RED" in white, followed by "Flow-based programming for the Internet of Things". The main content area is light gray and contains three paragraphs of text: "Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.", "This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.", and "More information about Node-RED, including documentation, can be found at [nodered.org](https://nodered.org)". To the right of the text is a button that says "Go to your Node-RED flow editor" and a link that says "Learn how to customise Node-RED". The browser's taskbar at the bottom shows various application icons and the system clock indicating 10:55 on 05-11-2022.

# Node-RED

Flow-based programming for the Internet of Things

Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.

This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.

More information about Node-RED, including documentation, can be found at [nodered.org](https://nodered.org).

The screenshot shows the Node-RED flow editor interface. The top bar includes the "Node-RED" logo, a search bar, and a "Deploy" button. The left sidebar contains a "filter nodes" search bar and two categories of nodes: "common" (inject, debug, complete, catch, status, link in, link call, link out, comment) and "function" (function, switch). The main workspace, titled "Flow 1", shows a flow with two nodes: "Hello Node-RED!" and "msg payload". The right sidebar is the "debug" console, which displays a log of messages. The log shows three entries, each with a timestamp, node ID, and message payload. The first two entries are from 11/5/2022, 10:55:40 AM, and the third is from 11/5/2022, 10:55:43 AM. All three entries have a message payload of "Hello Node-RED!". The browser's taskbar at the bottom shows various application icons and the system clock indicating 10:55 on 05-11-2022.
